

## REMARKS

The provisional application on which the present application is based was acknowledged by the PTO with a filing receipt on which the serial number is illegible. This was not noticed until the present application was filed. Therefore, the provision serial number was unknown at the time of filing. This amendment corrects the specification.

Respectfully submitted,

Nick Bromer  
Registration No. 33,478

Enclosure: Version With Markings to Show Changes

**VERSION WITH MARKINGS TO SHOW CHANGES**

**IN THE SPECIFICATION**

Benefit is claimed of the filing date of the Provisional Patent Application entitled "Toe Dorsiflection Skate Brake" filed on November 28, 2000, by the same applicant, serial number 60/253,103, the whole disclosure of which (specification, drawing, claims, and abstract) is entirely incorporated herein by reference. [The serial number of the provisional application is unknown.]
